Yoga, diet advice

OP Timings : 8 .00 AM to 2.00 PM

Details of academic Activities to MBBS Students

Basic Yogic postures are being thought to the first year Students and also posted for a week in their CRMI period.

Naturopathy

Naturopathy is a holistic and traditional system of medicine that emphasizes the inherent ability of the body to heal itself. It is based on the concept of five great elements earth (prithvi) , water, fire, air and space. Each element plays a vital role in maintaining the balance and harmony of the body.

Naturopathy and Yoga department employs therapies like Hydrotherapy, mud therapy, yoga therapy, diet therapy, fasting therapy magento therapy, chromo therapy, helio therapy, acupressure, acupuncture, reflex zone therapy, massage therapy

and life style changes to restore the balance of these great elements.

Hydrotherapy

It is a versatile multimodal approach using varied temperature, pressure and immersion methods to enhance circulation, reduce inflammation / pain.

Diet therapy

It is the core component of Naturopathy, emphasizing the healing power of natural food to maintain health, prevent disease, and restore balance in the body. unlike conventional diet, Naturopathy diet therapy is highly individualized based on the patients constitution , lifestyle, and health conditions.

It also emphasizes a plant based or vegetarian balanced diet including macro, micro nutrients , phytonutrients, trace elements, antioxidants, and enzymes . It teaches the right combination of food, right eating habits etc..

Yoga Tharapy

Yoga therapy is the application of yoga tools to address an individual's physical, mental, and emotional needs, particularly in the context of health and wellness.

Common Techniques Used:

Asanas (yoga postures)

Pranayama (breathing exercises)

Dhyana (meditation and mindfulness)

Relaxation techniques (like Yoga Nidra)

Lifestyle and diet advice (based on yogic philosophy)

Benefits:

Reduces stress, anxiety, and depression

Improves flexibility, balance, and strength

Enhances cardiovascular and respiratory function

Aids in pain management

Promotes better sleep and digestion.

Magneto therapy

Magneto therapy is an adjunct therapy which uses the static magnetic field or pulsed magnetic field to various health conditions widely used for pain relief and relaxation

"Nature is the best healer."

Fasting

Fasting gives the digestive system a rest, allowing the body to focus energy on cleansing, repair, and regeneration.

Types of Fasting in Naturopathy:

1. Water Fasting – Only water is consumed.
2. Juice Fasting – Fresh fruit or vegetable juices are taken.
3. Raw Fruit Diet – Light diet with seasonal fruits only.
4. Intermittent Fasting – Eating within a time-restricted window.
5. Mono-diet Fasting – One type of food (e.g., grapes or apples) is consumed.

Reflexology

There are pressure points in the feet and palms that correspond to every organ and system of the body, gentle pressure is applied with skill in releasing tension, boosting circulation, and rebalancing the energy.

Massage

Massage is a soft tissue manipulation that enhances the lymphatic drainage and promotes circulation. it is the best relaxing and rejuvenating therapy.

Partial

full body massage

vibro massage
